Marry Me Maybe

Jhon Kim

Intro. to webdev final project

Now you can...

Options

You can choose from 5 different venues as puzzles.

Themes

Choose from two different themes.

Animation

Explore cool liquid fill and simple carousel animation.

What's New?

01

Carousel

Now you can choose from multiple venues.

02

Actual Puzzle

Instead of a flip puzzle, I implemented a drag & drop puzzle.

03

Dual Theme

There is now a pink version of the website.

04

Liquid Fill Button

The 'change theme' button is liquid fill on hover.

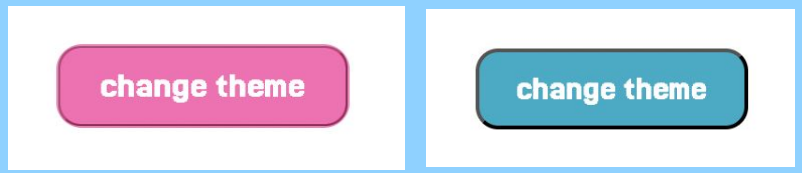
Carousel Demo

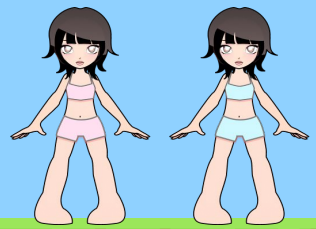
- **Bootstrap + Followed code structure for what we did for the sample carousel we did for class**
- **Link:** file:///Users/youngjukim/Desktop/web_dev/web_dev_f24/final_proj/venues.html

Drag & Drop Puzzle

- **Method (venue.html — line 243~263):**
  - Pass selected venue id as url parameter & extracted through '**URLSearchParams**'
  - Uses '**dropZonePosition === piecePosition**' for checking correct spot

Dual Theme & Liquid Fill

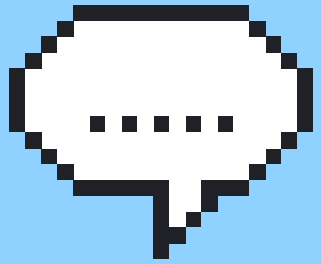




Possible Next Steps

Possibly upgrade the carousel to be 3D following this tutorial.

Implement confetti animation on couple in homepage on click, following this tutorial.



Thanks!
